

Job Brief

Electrical Estimator- Major Projects

Where - Albury Area NSW

Category – Estimating (Construction)

Full time

\$100k-120k, 9 day fortnight

About us

We are a top to bottom electrical service provider, delivering solutions from the power pole to the power point. Our capabilities span the entire electrical lifecycle, including design, installation, maintenance, generation systems, and renewable energy projects.

As part of our service delivery team in Albury, NSW, the successful candidate will play an important role in supporting the delivery of high quality electrical and engineering services to our clients.

We are seeking a motivated professional who is committed to excellence in their trade and continuous improvement, with a genuine desire to be part of a team striving to be the best in the industry.

By building and maintaining strong relationships with our customers, we remain focused on delivering practical solutions, honouring our commitments, and consistently doing the right thing for the customer.

We

- Work a 9 day fortnight.
- Are energetic and flexible.
- Have a strong presence in South East Australia and conduct functions from a head office & workshop in Albury (NSW).
- Maintain excellent relationships with clients.
- Support a team of experts, the best in the business.

You

- Are electrically strong.
- Have industry experience.
- Have specialised in one form of your trade.
- Are interested in living in the greater Albury community.
- Want to make a difference in this work.
- Want to work with the best.

Typical works to complete

As a major projects estimator, your role typically involves analysing large-scale construction projects to determine cost estimates. This includes:

- **Cost Analysis and Budgeting:** Break down the project into components, assess labour, material, and equipment costs, and create detailed budgets based on these assessments.
- **Risk Assessment and Contingency Planning:** Identify potential risks that could impact the project's budget or timeline and build contingency allowances to account for these risks.
- **Vendor and Subcontractor Coordination:** Obtain and evaluate quotes from suppliers, vendors, and subcontractors to ensure accurate and competitive cost estimates.
- **Report Preparation and Presentation:** Compile estimates, supporting data, and assumptions into comprehensive responses and present findings to stakeholders for review and approval.

Qualifications & Experience Preferred

- Electrical license.
- Australian working experience.
- Experience undertaking estimates.
- Experienced in reporting.

Employer Questions

Your application will include answers to the following questions.

- 1) What are your working rights in Australia?
- 2) How many years experience do you have?
- 3) Do you have a current Police Check (National Police Certificate) for employment?
- 4) Regular attendance at our head office is important to our team. Are you willing to live regionally for this role?
